INDEX OF AUTHORS

Volume 32

January 1964 • June 1964

Journal of the National Cancer Institute
and
National Cancer Institute Monographs

Page numbers in italics indicate senior authorship
Page numbers in bold type indicate discussants

Adams, Angela, 395
Addison, Betty V., 981
Allen, Barbara V., 269
Alpers, Joseph B., Nat Cancer Inst Monogr 13, *247*
Ammeraal, Robert N., Nat Cancer Inst Monogr 13, 67
Amos, Harold, Nat Cancer Inst Monogr 13, *155*
Andervont, Howard B., *1189*
Archer, Victor E., 787
Arias Stella, Javier, Nat Cancer Inst Monogr 14, **337**
Ashburn, L. L., 1045
Ashmore, James, 731
Askonas, Brigitte, Nat Cancer Inst Monogr 13, 155
Auersperg, Nelly, *135*

Balner, H., *419*
Basile, Renato, Nat Cancer Inst Monogr 14, 199
Beard, J. W., 201
Becker, Caroline, 201
Bell, Eugene, Nat Cancer Inst Monogr 13, *1*
Bendich, Aaron, 667
Berenblum, I., *723*
Bertalanffy, Felix D., *535*
Biskis, Birute O., Nat Cancer Inst Monogr 14, 243
Black, Paul H., *253*
Block, Jerome B., *123*
Boiato, Louisa, 723
Borenfreund, Ellen, *667*
Bruce, W. R., *1145*
Buonassisi, Vincenzo, Nat Cancer Inst Monogr 13, 81
Burdman, José A., 165
Burmester, Ben R., *37*, 1343
Butler, Thomas C., 939

Campbell, Barbara K., 1031
Carroll, Benjamin E., 787
Chang, Y. T., *19*
Charney, Jesse, 779
Chavin, Walter, Nat Cancer Inst Monogr 13, 67
Chieco-Bianchi, Luigi, 1083
Clarkson, Bayard, *471*
Cohen, Stanley, Nat Cancer Inst Monogr 13, *13*
Cole, Glynda E., 1023
Congdon, Charles C, Nat Cancer Inst Monogr 14, **183**, **337**, *379*
Coriell, Lewis L., 779
Correa, Pelayo, Nat Cancer Inst Monogr 14, **337**
Cortner, Jean A., 681
Court Brown, W. M., Nat Cancer Inst Monogr 14, **70**, **270**, *291*
Crispens, Charles G., Jr., *497*

INDEX OF SUBJECTS

Volume 32

January 1964 • June 1964

Journal of the National Cancer Institute
and
National Cancer Institute Monographs

Alcohol, differences in sex ratio according to cancer site and possible relationship with use of, 1309

Amino acid(s) *see also* Names of
- concentrating ability for model, shown by Rous sarcoma slices and chorio-allantoic membrane of chick, 731

1-Aminocyclopentane-1-carboxylic acid, comparison of concentrating ability of Rous sarcoma slices and chorio-allantoic membrane of chicks for, 731

α-Aminoisobutyric acid, comparison of concentrating ability of Rous sarcoma slices and chorio-allantoic membrane of chicks for, 731

Amylase, activity of, in pancreatic epithelium *in vivo* and *in vitro*, Nat Cancer Inst Monogr 13, 51

Announcements:
- Gordon Research Conference, 1199
- Manuscripts Approved for JNCI, 267, 533, 739, 960, 1200, 1374
- Monograph: Cancer Registration and Survival in California, 267
- National Cancer Institute Monograph No. 13, 960
- National Cancer Institute Monograph No. 14, 1199
- Note to Authors Submitting Manuscripts for JNCI or NCI Monographs, 959

Antibody(ies):
- neutralizing, for simian vacuolating virus (SV40) in hamsters, 253
- specific cytotoxic, determination of mammalian cell species by, 779

Antigen(s) *see also* Antibody; Immunity studies
- behavior of *H-2*, D and K, in variants of heterozygous mouse tumors, 569
- determination of mammalian cell species by specific cytotoxic antibody, 779
- properties of, of lymphomas induced by Moloney agent, 547
- specificity, of benzo[*a*]pyrene-induced sarcomas in mice, 1229
- stability of, in polyoma tumors resistant to polyoma virus infection, 661
- study of histocompatibility mutations with the use of "immunological enhancement," 1245

Arginine, metabolism of, in cultured cells, Nat Cancer Inst Monogr 13, 197

Ascites tumor(s) *see also* Ehrlich ascites tumor
- binucleate cells in murine, as cause of variation in ploidy, 1023
- conversion of malignant melanoma of golden hamster to, 1201

Autoradiography, of uptake of tritiated thymidine and S^{35} cystine by cultured human cervical explants undergoing metaplasia, 1059

Benzo[*a*]pyrene, antigenic specificity of sarcomas induced in mice by, 1229

Blood, sugar, changes in, induced by methylglyoxal bis(guanylhydrazone) in *Opsanus tau*, 123

723-968—64——17

Bone:
——marrow,
development of secondary disease in rat radiation chimeras after transplantation of, 419
proliferation pattern of, under continuous irradiation, Nat Cancer Inst Monogr 14, 185
Books Received, 534, 1373
Bursa, bursectomy, effect of, on development of visceral lymphomatosis in chickens, 1343

Cancer *see also* Names and types of tumors; Tumors
cell division and a hypothesis of, Nat Cancer Inst Monogr 14, 7
human, at high altitude, Nat Cancer Inst Monogr 14, 333
in mice, at high altitude and at sea level, Nat Cancer Inst Monogr 14, 309
Carcinogenesis *see also* Names and types of tumors; Tumors
in C3H mouse embryonic tissue *in vitro* determined by intraocular growth, 89
chemical carcinogens,
benzo[*a*]pyrene, antigenic specificity of sarcomas induced in mice by, 1229
dibenz[*a*,*h*]anthracene, age and breed effects on induction of fibrosarcomas by, in pigeons, 905
7,12-dimethylbenz[*a*]anthracene, diurnal variation of mouse epidermis to, 1213
N-hydroxy-*N*-2-fluorenylacetamide, in liver of rats, 881
urethan, contribution of studies of, to the understanding of, Nat Cancer Inst Monogr 14, 341
chemical, clonal selection theory of, 1
in mammary gland grafts in rats, 1259
production of, by exposure to irradiation, Nat Cancer Inst Monogr 14, 271
tumors in female inbred germfree albino mice exposed to bedding treated with ethylene oxide, 1045
tumors produced by adenovirus 12 in *Mastomys* and mice, 77
Carcinogens *see* Benzo[*a*]pyrene; Dibenz[*a*,*h*]anthracene; 7,12-Dimethylbenz[*a*]anthracene; *N*-Hydroxy-*N*-2-fluorenylacetamide; 3-Methylcholanthrene; Urethan
Cartilage:
action of vitamin A on, in tissue culture, Nat Cancer Inst Monogr 13, 93
induction *in vitro*, Nat Cancer Inst Monogr 13, 39
Cell(s):
blood-forming stem, Nat Cancer Inst Monogr 14, 151
cancerous endocrine, alterations of, in alternate animal and culture passage, Nat Cancer Inst Monogr 13, 81
chick embryo, messenger activity of alien ribonucleic acid in, Nat Cancer Inst Monogr 13, 155
Chinese hamster and L, response of, to 2′-deoxy-5-fluoro-uridine and thymidine, 839
differentiation of melanoblasts into melanocytes in explants from tailfin of xanthic goldfish, Nat Cancer Inst Monogr 13, 67
division,
and a hypothesis of cancer, Nat Cancer Inst Monogr 14, 7
relation of Shope papilloma virus to, Nat Cancer Inst Monogr 14, 107
enzymes,
changes in cultured heart, Nat Cancer Inst Monogr 13, 257
in cultivated human, Nat Cancer Inst Monogr 13, 181
regulation of synthesis of, in cultured, Nat Cancer Inst Monogr 13, 219
functional alterations of, due to viruses, Nat Cancer Inst Monogr 14, 93
"giant," in preparations of Rous sarcoma virus, 579
HeLa, glycogen phosphorylase in, Nat Cancer Inst Monogr 13, 247
human diploid, survival of, in Syrian hamster cheek pouch following infection with various viruses *in vitro*, 981
intracellular *p*H of the Ehrlich ascites tumor, 939
life cycle, Nat Cancer Inst Monogr 14, 57
long-term tissue culture of,
human hypodiploid, 135
karyotype of diploid strain of rat fibroblasts, 1031
macrophages from mouse peritoneal cavity, 19
neuroblastomas in children, development of, in, as evidence for maturation, 165

Cell(s)—Continued
lymphoblasts, leukemic in reticular, in tissue culture, 339
lymphocytes, radioresistance of normal and leukemic, produced by phytohemagglutinin, 507
metabolic patterns of malignant, Nat Cancer Inst Monogr 14, 21
mode of action of exogenous ribonucleic acid in function of, Nat Cancer Inst Monogr 13, 167
murine, binucleate from uninucleate, owing to failure of cleavage, 1023
myeloblasts of BAI strain A avian myeloblastosis, role of gray bodies in, 201
populations in postnatal rat, Nat Cancer Inst Monogr 14, 119
proliferation,
under continuous irradiation, Nat Cancer Inst Monogr 14, 185
in the mammal, Nat Cancer Inst Monogr 14, 169
of rat tumor, in presence of normal, in tissue culture, 963
suspensions of, selective filtration of, with graded membranes, technique and apparatus, 625
Cervix, cancer of, detection of, by photometric cytodiagnosis on vaginal smears, 1221
Chemical agents *see* Carcinogenesis; Chemotherapy; Names of
Chemotherapy, combination of, and central nervous system irradiation in treatment of L1210 leukemia, 1333
Cholesterol, pellets, method of preparation, 957
Chromosome(s) *see also* Genes; Genetics
aberrations induced by hyponitrite and hydroxylamine derivatives in, of mouse embryo and Chinese hamster cells, 667
abnormality of, in chronic myeloid leukemia in man, Nat Cancer Inst Monogr 14, 291
in adult acute leukemia, 395
of the Chinese hamster, idiogram, 857
chronology and pattern of replication in normal human leukocytes, 1109
in fifty-two human tumors, 741
karyotype of human hypodiploid cell strains in long-term tissue culture, 135
number of, of persistent strain of rat muscle cells, 1031
Chromosome(s)—Continued
of three long-term tissue culture cell strains derived from human tissue, 681
ultrastructure of, Nat Cancer Inst Monogr 14, 33
Collagen, effect of tumor cells on preexisting, and on production of, by normal cells grown in diffusion chambers, 709
Communication, models as aids to, Nat Cancer Inst Monogr 13, 111
Cricetulus griseus, chromosmoal studies of, 857
Cytology, photometric cytodiagnosis on vaginal smears, 1221

2′-Deoxy-5-fluoro-uridine, as inhibitor of growth rate of L-M mouse fibroblasts and Chinese hamster cells, 839
Deoxyribonucleic acid:
synthesis of,
diurnal variation in susceptibility of mouse epidermis to carcinogen, and its relationship to, 1213
effect of ionizing radiation on, Nat Cancer Inst Monogr 14, 199
inhibition of, in L and Chinese hamster cells by 2′-deoxy-5-fluoro-uridine, 839
regulation of, in embryonic tissue, Nat Cancer Inst Monogr 13, 117
Dibenz[*a*,*h*]anthracene, age and breed effects on induction of fibrosarcomas by, in pigeons, 905
7,12-Dimethylbenz[*a*]anthracene, diurnal variation in the susceptibility of mouse epidermis to, 1213
Dimethylnitrosamine, labeled, methylation of ribonucleic acid in organs of different species infected with, 65

Ehrlich ascites tumor(s), cell, intracellular *p*H of, 939
Electron microscopy, on a murine leukemia virus (Rauscher), 1277
Embryo(s):
chick,
behavior of P388 mouse leukemia in, 471
messenger activity of alien ribonucleic acid in cells of, Nat Cancer Inst Monogr 13, 155

Embryo(s)—Continued
mouse,
chromosomal aberrations induced by hyponitrite and hydroxylamine derivatives in cells of, 667
histocompatibility variations in mouse tumor cells and tissue of, 1001
rat, inhibition by 3-methylcholanthrene of interferon formation in cells of, infected with Sindbis virus, 1317
sea urchin, control of protein synthesis in, Nat Cancer Inst Monogr 13, 141
Embryonic tissue, regulation of deoxyribonucleic acid synthesis in, Nat Cancer Inst Monogr 13, 117
Environment:
high altitude,
growth of experimental tumors in mice at, and at sea level, Nat Cancer Inst Monogr 14, 309
human cancer at, Nat Cancer Inst Monogr 14, 333
industrial, cancer mortality patterns among U.S. uranium miners and millers, 1950 through 1962, 787
Enzyme(s) *see also* Names of
adaptive, in cultured cells, Nat Cancer Inst Monogr 13, 219
changes in cultured heart cells, Nat Cancer Inst Monogr 13, 257
in cultivated human cells, Nat Cancer Inst Monogr 13, 181
epizootiology of agent promoting rise in activity of lactic dehydrogenase in serum of mice, 497
galactose, in malignant cells, Nat Cancer Inst Monogr 14, 21
induction and repression, Nat Cancer Inst Monogr 13, 197
reversible alteration of lactate dehydrogenase pattern in 3 human cell strains after long cultivation in chemically characterized medium, 681
sulfate-activating, in cartilage induction *in vitro*, Nat Cancer Inst Monogr 13, 39
Epidemiology:
cancer mortality patterns among U.S. uranium miners and millers, 1950 through 1962, 787
differences in sex ratio according to cancer site and possible relationship with use of tobacco and alcohol, review of 65,000 cases, 1309
Epidemiology—Continued
lung-cancer mortality in white females as related to residence and smoking histories, 803
smoking in relation to mortality and morbidity in men, first 34 months of follow-up in study started in 1959, 1161
Epithelioma, naturally occurring murine, chromosomal study with ascites form, 1023
Epizootiology, of lactic dehydrogenase agent in mice, 497
Erythropoiesis, as a model system for study of factors affecting cell proliferation, Nat Cancer Inst Monogr 14, 169
Erythropoietin, effects of irradiation on stem cell number and affinity for, Nat Cancer Inst Monogr 14, 169
Ethylene oxide, multiple tumors in female inbred germfree albino mice exposed to bedding treated with, 1045

Fibrosarcoma(s), age and breed effects on induction of, by dibenz[*a*,*h*]anthracene in pigeons, 905

Gene(s) *see also* Chromosomes; Genetics
structural, of viruses, Nat Cancer Inst Monogr 14, 93
Genetics *see also* Chromosomes; Genes
behavior of *H-2* antigens D and K in variants of heterozygous mouse tumors, 569
strains of mice, DD, new high mammary tumor strain, 237
Geographic pathology, methods of, for cancer studies, Nat Cancer Inst Monogr 14, 303
Germfree animals, female inbred albino mice, multiple tumors in, exposed to bedding treated with ethylene oxide, 1045
Glands *see* Names of
Glioma, growth of, effect on hepatic mitotic activity in mice, 871
Glycogen:
content of 3 human cell strains after long cultivation in chemically characterized protein-free medium, 681
phosphorylase in HeLa cells, Nat Cancer Inst Monogr 13, 247
Goldfish, xanthic, hormone-induced formation of melanocytes in explants from tailfin of, Nat Cancer Inst Monogr 13, 67

Graffi virus *see* Virus
Growth, epidermal, factor, properties of, Nat Cancer Inst Monogr 13, 13

Hepatoma(s):
AH-130 cells of rats in tissue culture in presence of normal cells, 963
129(P), mouse cells, effect on collagen when grown in diffusion chambers in mouse, 709
in tissue culture compared with adapting rat liver *in vivo*, Nat Cancer Inst Monogr 13, 229
Hormone(s) *see also* Prolactin
-induced formation of melanocytes in explants from xanthic goldfish tailfin, Nat Cancer Inst Monogr 13, 67
-secreting cultures of endocrine tumor origin, Nat Cancer Inst Monogr 13, 81
N-Hydroxy-*N*-2-fluorenylacetamide, effect of pituitary hormones on carcinogenesis by, in rats, 881
Hydroxyproline, as measure of collagen production by tissue grown in diffusion chambers, 709
Hypophysis, in pituitary gland, induction of mammary tumors by isografts of, in mice, 947

Immunity studies, immunity to infection with murine leukemia virus (Rauscher) in mice, 1075
Implantation *see* Transplantation
Instrumentation, hormone-cholesterol pellets, improved method of preparation, 957
Interferon, inhibition of formation of, by 3-methylcholanthrene in rat embryo cells infected with Sindbis virus, 1317
Irradiation *see* Radiation; X-ray

Lactate dehydrogenase, pattern in 3 human cell strains grown in chemically characterized, protein-free medium, 681
Lactic dehydrogenase, agent, mode of spread in mice, 497
Leukemia:
acute adult, chromosome studies in, 395
dissemination and growth of transplanted isologous murine lymphoma cells, 1145
effect of urethan-treated isologous bone marrow of mouse on radiation leukemogenesis, 723
Leukemia—Continued
incidence of, after ionizing radiation, Nat Cancer Inst Monogr 14, 221
induction in man, after radiation exposure, Nat Cancer Inst Monogr 14, 291
influence of host environment on development and type of, induced by Graffi virus in mice, 1083
intrareticular cell multiplication of lymphoblasts in thymic tissue cultures, 339
L1210, combination of chemotherapy and central nervous system irradiation in treatment of, 1333
mouse (Moloney virus), association of, with rat virus, 523
mouse, P388 in chick embryo and hatched chick, 471
murine (Rauscher virus),
electron microscopic and bioassay study of, effects of physicochemical treatments on the morphology and biological activity of, 1277
growth curve of, 269
immunity to infection with, 1075
Leukemogenesis, role of radiation in experimental, Nat Cancer Inst Monogr 14, 207
Liver:
carcinogenesis, effect of pituitary hormones on, in rats, with *N*-hydroxy-*N*-2-fluorenylacetamide, 881
enzyme synthesis in rat, *in vivo*, Nat Cancer Inst Monogr 13, 229
messenger ribonucleic acid and protein synthesis in rat, Nat Cancer Inst Monogr 13, 131
mitotic activity in, effect of glioma growth on, in mice, 871
Lung cancer:
mortality,
patterns of, among U.S. uranium miners and millers, 1950 through 1962, 787
smoking in relation to, and morbidity in men, first 34 months of follow-up in study started in 1959, 1161
among white females, as related to residence and smoking history, 803
Lymphoma(s):
antigenic properties of, induced by Moloney agent, 547

Lymphoma(s)—Continued
dissemination and growth of transplanted isologous murine cells of, 1145
Lymphomatosis (avian) *see* Virus

Macromolecular agents, as benign and malignant cell proliferants, Nat Cancer Inst Monogr 14, 357
Mammary gland(s) *see also* Mammary tumors
carcinogenesis in, grafts in rats, 1259
Mammary tumor(s):
incidence of,
in mouse strains DD and C3H, 237
relationship to strain differences in normal and abnormal pregnancies in mice, 323
induced in mice by isografts of hypophyses, 947
Mammary tumor agent:
mammary tumor incidence, relation to, in mouse strains DD and C3H, 237
survival of, in mouse strains C57BL, I, and BALB/c, 1189
Melanoma:
growth and differentiation of, in golden hamster, 1201
malignant B16, rate of cell division of, in mouse, 535
Metabolism:
control mechanisms in living cells, Nat Cancer Inst Monogr 14, 7
enzymes of arginine, in cell culture, Nat Cancer Inst Monogr 13, 197
nucleolus in ribonucleic acid, Nat Cancer Inst Monogr 14, 73
3-Methylcholanthrene:
inhibition of interferon formation by, in rat embryo cells infected with Sindbis virus, 1317
prolactin-releasing activity of, 461
Methylglyoxal bis(guanylhydrazone), blood sugar changes induced by, in *Opsanus tau*, 123
Mitosis *see also* Cell—division
in cell populations of postnatal rats, Nat Cancer Inst Monogr 14, 119
hepatic mitotic activity in mice, effect of glioma growth on, 871
involvement of, in hormone-induced melanocytogenesis in explants from xanthic goldfish tailfin, Nat Cancer Inst Monogr 13, 67
rate of, of malignant mouse Melanoma B16, 535
Moloney leukemia *see* Virus
Myeloblastosis (avian) *see* Virus

Neoplasia, macromolecular agents and, Nat Cancer Inst Monogr 14, 357
Neuroblastomas, long-term tissue culture of cells of, from human young, 165
Nucleic acid(s) *see also* Deoxyribonucleic acid; Ribonucleic acid
effects of radiation on synthesis of, Nat Cancer Inst Monogr 14, 199
Nucleolus, role of, in ribonucleic acid metabolism, Nat Cancer Inst Monogr 14, 73
Nucleus, differences in ultrastructure of, and cytoplasm, Nat Cancer Inst Monogr 14, 33

Opsanus tau, blood sugar changes induced in, by methylglyoxal bis(guanylhydrazone), 123
Organ culture, epidermal growth response in, Nat Cancer Inst Monogr 13, 13
Organs *see* Names of

Pancreas, control of specific synthesis in developing, Nat Cancer Inst Monogr 13, 51
Papovavirus SV40 *see* Virus—simian vacuolating (SV40)
Phosphorylase, glycogen, in HeLa cells, Nat Cancer Inst Monogr 13, 247
Phytohemagglutinin, radioresistance of normal and leukemic lymphocytes produced by, 507
Pituitary gland *see also* Hypophysis
hormones of, effect of, on liver carcinogenesis by *N*-hydroxy-*N*-2-fluorenylacetamide in rats, 881
Plasma *see* Blood
Polyoma virus *see* Virus
Pregnancy, normal and abnormal, strain differences in mice, relationship of, to mammary tumor incidence, 323
Prolactin, release of, by 3-methylcholanthrene, 461
Proliferative behavior, of cell populations, Nat Cancer Inst Monogr 14, 119
Protein(s):
isolation and biological effects of epidermal growth-stimulating, Nat Cancer Inst Monogr 13, 13

Protein(s)—Continued
synthesis of,
control of, in embryos of sea urchin, Nat Cancer Inst Monogr 13, 141
in developing pancreas, Nat Cancer Inst Monogr 13, 51
in differentiating chick skin, Nat Cancer Inst Monogr 13, 1
and messenger ribonucleic acid in rat liver, Nat Cancer Inst Monogr 13, 131

Radiation(s) *see also* X-ray
central nervous system and chemotherapy in the treatment of Leukemia L1210, 1333
gamma,
chronic exposure to, and X-ray, Nat Cancer Inst Monogr 14, 271
survival of mice under duration-of-life exposure to, 277
ionizing,
and carcinogenesis, Nat Cancer Inst Monogr 14, 221
effects of, on nucleic acid synthesis in polytene chromosomes, Nat Cancer Inst Monogr 14, 199
leukemia induction in man following exposure to, Nat Cancer Inst Monogr 14, 291
osteogenic sarcomas induced in mice by, Nat Cancer Inst Monogr 14, 243
Radioactive materials:
Ca^{45} and Sr^{90}, production of osteogenic sarcomas in mice by, Nat Cancer Inst Monogr 14, 243
C^{14}- and H^3-dimethylnitrosamines, methylation of ribonucleic acid of liver and other organs in different species by, 65
C^{14}-ribonucleic acid, localization of, in mouse ascites cells, Nat Cancer Inst Monogr 13, 167
tritiated thymidine,
and S^{35} cystine, uptake of, by cultured human cervical explants undergoing metaplasia, 1059
as tool in study of leukocyte chromosome replication, 1109
Rauscher murine leukemia *see* Virus
Residence history, of white females, as related to lung-cancer mortality, 803
Ribonucleic acid:
alien, in chick embryo cells, Nat Cancer Inst Monogr 13, 155
Ribonucleic acid—Continued
of liver and other organs in different species, methylation of, by C^{14}- and H^3-dimethylnitrosamines *in vivo*, 65
messenger, and protein synthesis in rat liver, Nat Cancer Inst Monogr 13, 131
mode of action of exogenous, in cell function, Nat Cancer Inst Monogr 13, 167
nucleolus in metabolism of, Nat Cancer Inst Monogr 14, 73
Rous sarcoma *see* Virus—Rous sarcoma

Sarcoma(s) *see also* Fibrosarcomas; Virus—Rous
antigenic specificity of, induced in mice by benzo[*a*]pyrene, 1229
osteogenic, in mice, after radiation, Nat Cancer Inst Monogr 14, 243
Sea urchin, regulation of protein synthesis in embryos of, Nat Cancer Inst Monogr 13, 141
Shope papilloma *see* Virus
Sindbis virus *see* Virus
Skin, protein synthesis in differentiating chick, Nat Cancer Inst Monogr 13, 1
Skin tumors, carcinogenesis, in mice, diurnal variation in, and relationship to deoxyribonucleic acid synthesis, 1213
Smoking (tobacco):
differences in sex ratio according to cancer site and possible relationship with use of, 1309
lung cancer in white females as related to history of, 803
relation to mortality and morbidity in men, first 34 months of follow-up in study started in 1959, 1161
Symposium on the Control of Cell Division and the Induction of Cancer:
introduction to, Nat Cancer Inst Monogr 14, 1
summary of, and final discussion of, Nat Cancer Inst Monogr 14, 379

Technique(s):
autologous and homologous implantation of human cells transformed *in vitro* by simian vacuolating virus (SV40), 917
biological,
diffusion chambers, effect of tumor cells on pre-existing collagen and on collagen production by normal cells grown in, 709

Technique(s)—Continued
biological—Continued
dissemination and growth of transplanted isologous murine lymphoma cells, 1145
improved method of producing hormone-cholesterol pellets, 957
neoplastic transformations in C3H mouse embryonic tissue *in vitro* determined by intraocular growth, 89
photometric cytodiagnosis of vaginal smears, 1221
selective filtration of tumor-cell suspensions with graded membranes, 625
Thymidine:
reversal of growth inhibition by 2'-deoxy-5-fluoro-uridine treatment of L-M mouse cells and Chinese hamster cells, 839
tritiated,
as tool in study of leukocyte chromosome replication, 1109
uptake of, by cultured human cervical explants undergoing metaplasia, 1059
Thymus:
effect of thymectomy,
on incidence of visceral lymphomatosis in chickens, 1343
on type of leukemia induced in mice by Graffi virus, 1083
as source of lymphoma material for culture of lymphoblasts growing in reticular cells, 339
Tissue culture:
action of vitamin A on cartilage in, Nat Cancer Inst Monogr 13, 93
autologous and homologous implantation of human cells transformed *in vitro* by simian vacuolating virus (SV40), 917
carcinogenesis *in vitro*, neoplastic transformations in C3H mouse embryonic tissue determined by intraocular growth, 89
determination of species of origin of cultivated mammalian cells by specific cytotoxic antibody, 779
hepatomas in, compared with adapting rat liver *in vivo*, Nat Cancer Inst Mongr 13, 229
intrareticular cell multiplication of leukemic lymphoblasts in thymic, 339
Tissue culture—Continued
long-term,
growth of mouse peritoneal macrophages in medium NCTC 109, 19
of hypodiploid human tumor cells, 135
of neuroblastomas from children resulting in cell differentiation and maturation, 165
of mouse embryo and hamster cells, chromosomal aberrations induced by hyponitrite and hydroxylamine derivatives, 667
of normal and neoplastic rat cells in presence of each other, 963
Tobacco *see* Smoking
Transformation, neoplastic, in C3H mouse embryonic tissue *in vitro* determined by intraocular growth, 89
Transplantation:
autologous and homologous, of human cells transformed *in vitro* by simian vacuolating virus (SV40), 917
of bone marrow,
development of secondary disease after, in rat radiation chimeras, 419
isologous, urethan-treated, of mouse, action of, on radiation leukemogenesis, 723
carcinogenesis in mammary gland grafts in rats, 1259
histocompatibility mutations,
in mouse tumor cells and embryonic tissue, 1001
use of "immunological enhancement" in study of, 1245
of mouse P388 leukemia in chick embryo and hatched chick, 471
polyoma-virus-induced tumor transplants,
mechanism of resistance to, induced by polyoma infection, 375
specific resistance to, induced by polyoma infection, 361, 645
stability of the polyoma cell antigen, 661
of tissue, after lethal whole-body radiation injury, Nat Cancer Inst Monogr 14, 151
Tumor(s) *see also* Names and types of
chromosome studies in 52 human, 741
in female inbred germfree albino mice exposed to bedding treated with ethylene oxide, 1045

Tumor(s)—Continued
histocompatibility variations in mouse cell, and embryonic tissue, 1001
mechanism of isoantigenic variant formation in heterozygous mouse, behavior of *H-2* antigens D and K, 569
polyoma,
karyotype and polyoma virus sensitivity in clones from, of mouse, 635
mechanism of resistance to transplants of, by polyoma virus infection, 375
specific resistance to transplants of, by polyoma virus infection, 361, 645
stability of the polyoma cell antigen, 661
selective filtration of cell suspensions of, with graded membranes, 625
study of mutations of, with the use of "immunological enhancement," 1245

Ultrastructure, of nucleus and chromosomes, Nat Cancer Inst Monogr 14, 33
Urethan:
action of isologous bone marrow from mice treated with, on radiation leukemogenesis, 723
studies, and carcinogenesis, Nat Cancer Inst Monogr 14, 341

Virus *see also* Mammary tumor agent
adenovirus 12, tumors produced by, in *Mastomys* and mice, 77
of avian lymphomatosis,
transmission from field cases and isolation of, in line 15I, 37
visceral, effect of bursectomy and thymectomy on development of, 1343
of avian myeloblastosis (BAI strain A), study of adenosinetriphosphatase, diphosphatase, and acid phosphatase activity, 201
chromosome damage in man after infection with certain, Nat Cancer Inst Monogr 14, 291
effect of various, on survival of diploid human cells on transplantation to hamster cheek pouch, 981
functional alterations of cells due to, Nat Cancer Inst Monogr 14, 93
Virus—Continued
Graffi, influence of host environment on development and type of leukemia induced by, in mice, 1083
Moloney leukemia,
antigenic properties of lymphomas induced by, in mice, 547
associated with, of rat, 523
murine leukemia (Rauscher),
electron microscopic and bioassay study on, effects of physicochemical treatments on the morphology and biological activity of, 1277
growth curve of, 269
immunity to infection with, in mice, 1075
polyoma,
karyotype and sensitivity to, in clones from polyoma mouse tumor, 635
mechanism of resistance to polyoma-virus-induced tumor transplants by infection with, 375
specific resistance to polyoma-virus-induced tumor transplants by infection with, 361, 645
stability of the polyoma cell antigen, 661
Rous sarcoma,
assimilation of amino acid analogues by tumor induced by, 731
Bryan and Zilber, as tumor agents in rats, 591
morphology of foci produced by, 579
Shope papilloma, relation to cell division, Nat Cancer Inst Monogr 14, 107
simian vacuolating (SV40),
autologous and homologous implantation of human cells transformed *in vitro* by, 917
tumorigenesis in hamsters, 253
Sindbis, inhibition by 3-methylcholanthrene of interferon formation in rat embryo cells infected with, 1317
Vitamin(s), A, membrane permeability of, Nat Cancer Inst Monogr 13, 93

X-ray irradiation:
carcinogenesis by, in mammalian species, Nat Cancer Inst Monogr 14, 221
cell proliferation under continuous, Nat Cancer Inst Monogr 14, 185

X-ray irradiation—Continued
chronic exposure to, and γ-rays, Nat Cancer Inst Monogr 14, 271
development of secondary disease in rat chimeras after, followed by bone marrow treatment, 419
effect of, on nucleic acid synthesis in polytene chromosomes, Nat Cancer Inst Monogr 14, 199
X-ray irradiation—Continued
leukemia, urethan-treated bone marrow of mouse in, 723
radioresistance of phytohemagglutinin-treated normal and leukemic lymphocytes, 507
role of, on experimental leukemogenesis, Nat Cancer Inst Monogr 14, 207
